Materials:

10017 - Plastic Teaspoons - Pack of 100

15232 - Rangoli Sand Art Sheets - Square - Pack of 30

15373 - CleverPatch Coloured Sand - 1kg - Set of 12 Colours

15443 - CleverPatch Glitter Sand - 250g - Set of 12 Colours

How to:

TIP

Always pour one colour of sand on your sand art sheet at a time to avoid colours mixing.

TIP

For less sand wastage, use a scrap piece of paper folded in half to catch the excess sand. This will make it easy to tip the sand back into the container ready to reuse!

STEP 1

Plan which colours you want to use on your sand art sheet before decorating.

STEP 2

Peel back the section of the sand art sheet to be decorated and use a spoon to pour coloured sand on top of the adhesive surface. Continue this process until your sand art sheet is completely covered with sand.
