# How to:

## STEP 1

Think about what you want to draw on your pot. If you are unsure, try drawing a design on paper first, then copy onto your pot with your ceramic and terracotta markers.

## STEP 2

Allow your design to dry for a minimum of 24 hours.

## STEP 3

Take a look at our [Ceramic & Terracotta Marker Tips](#) for more information.

## TIP

Lay the pot on its side so that the flowers will not slide off while they dry

## STEP 4

To create a felt flower cut circles from felt about 2cm bigger than your button. Scrunch slightly at the centre and attach your felt circle and button to your pot with glue. Allow to dry.
