How to:

TIP

For a fun activity place botanicals and natural textiles in the centre of the table and let your kids create their own boomerang!

STEP 1

Natural textiles are great to use for full coverage. We used abaca. Attach with glue.

TIP

For a quick adhesive use a hot glue gun. Adult supervision is required when using the hot glue gun.

STEP 2

Use nuts and berries to add texture and detail to your boomerang. Attach with glue.
