## How to:

### TIP

To get started, download the template above.

### STEP 1

Give the paper plate a coat of gold paint. Allow to dry.

### STEP 2

To create a blanket carefully cut a rectangle (5 x 8cm) from Indian craft paper. Use glue to attach the paper to the plate. Trim the excess paper from around the plate.

### STEP 3

Using the templates provided cut two legs, a tail, a trunk and an ear from corrugated board. Use glue to attach to your plate.

### STEP 4

Draw a circle on a piece of white paper to create an eye for the elephant. Carefully cut this out and use glue to attach the eye to the paper plate. Draw a small black circle inside the white paper circle to complete the eye.
