How to:

STEP 1

Cover your bookmark in craft paper. To do this cover the bookmark in glue and stick to the back of some craft paper. Once the glue has started to dry, trim the excess paper around the edges of the bookmark.

STEP 2

Cut and glue a strip of paper onto your bookmark. Trim any excess from the edges.

STEP 3

To create the car bookmark, use the template provided to cut out a car shape from craft paper.

STEP 4

Punch a small hole in the top of the car and the top of the bookmark.

STEP 5

Cut a length of twine and tie one end to the bookmark and the other end to the car. This is so it can hang over the edge of pages in a book to mark your place!

STEP 6

To create the rocket bookmark, use the template provided to cut out a rocket shape from craft paper. Follow the same steps that you used for the car to create your rocket bookmark!
