- 12758 - Iron Beads Pegboard - Clear
- 12763 - Iron Beads - Multi - Big Bottle
- 12858 - Iron Beads - Sparkle - Big Bottle

How to:

STEP 1

Working on a flat surface, create your design by placing beads one by one on an Iron-Me pegboard. Copy our patterns or come up with your own creative ideas.

STEP 2

Preheat a household iron to the medium setting. When carrying the bead design to the iron, be careful not to tip or bump the beads from the pegboard!

STEP 3

Cover the beads with the ironing paper and gently iron the beads in a circular motion for about 20 seconds to fuse the beads together evenly.

STEP 4

Once the design is cool, peel off the ironing paper. Lift your design from the reusable pegboard and flip the design over onto your ironing surface.

STEP 5

Cover it with the ironing paper and iron the other side to fuse it evenly.

STEP 6

Warning: Ironing must be done by an adult only.
