How to:

STEP 1

Start by sketching out your design onto a piece of paper before you start to decorate your mask. Once you have a design, transfer it lightly onto your mask using a pencil. This is not essential, but helps with planning your design.

STEP 2

Look to our designs above for inspiration or come up with your own.

STEP 3

Lay your mask out flat with the matt side facing up.

STEP 4

Paint your mask in assorted colours and allow to dry.

STEP 5

Construct your mask by folding along the scored lines using sticky tape to hold the folds in place.

STEP 6

Finally thread some elastic through the precut holes and tie the ends together. Slip on your mask and have fun!
