How to:

STEP 1

Protect your work area, prepare your materials and make sure you have glue, glue brushes and paint brushes on hand.

STEP 2

Insert the dowels supplied into the pre-cut holes. For permanent assembly we recommend to glue them in place.

STEP 3

Begin by giving your key holder, tool shapes a coat of white paint. Allow to dry. This is not essential but provides a good base for painting.

STEP 4

Paint your key holder, tool shapes in bright colours. Allow to dry.

STEP 5

Decorate your key holder with Father's Day craft paper and wooden shapes. Look to our design above for inspiration or come up with your own.

STEP 6

Tie a piece of twine to the top of your key holder so that Dad can hang his keys.
