- 10708 - Round Paint Brushes - Assorted - Pack of 30
- 10897 - Student Scissors - Pack of 20
- 12505 - CleverPatch Glue Gun Starter Set

How to:

STEP 1

Cut two black chenille stems into eight equal lengths (approximately 7cm) for your spider's legs!

STEP 2

Glue four chenille stem pieces to one side of a pom pom. Once the glue has set, glue the other four chenille stems to the other side of the pom pom. (You may need to hold the chenille stems against the pom pom to allow the glue to set).

STEP 3

Bend the chenille stems in the middle to make legs.

TIP

To make a baby spider, follow the instructions above, but instead use a smaller pom pom and cut the chenille stems shorter.

STEP 4

Grab two wiggle eyes and glue them to the front of your pom pom for eyes.
