# How to:

## STEP 1

Store your markers horizontally (flat).

## STEP 2

Always replace the cap immediately after using, even if you are just taking a short break. This will stop the ink from drying out.

## STEP 3

Shake your markers well before use.

## STEP 4

Press the tip of your marker gently & repeatedly to start the ink flow. Do this on some scrap paper, you may need to repeat this step each time you use your markers to get the ink flowing!

## TIP

Remember when baking your object, DO NOT pre-heat the oven. The difference in temperature may cause your porcelain or glass to crack. Instead, put your object in a cold oven, then turn the oven on.

## STEP 5

Press the tip of your marker gently & repeatedly to start the ink flow. Do this on some scrap paper, you may need to repeat this step each time you use your markers to get the ink flowing!

## STEP 6

Once dry, place your porcelain or glass object in a cold household oven. Once the temperature has reached 160°C, bake your porcelain or glass object for 90 minutes to heat set your design.
