How to:

TIP

Store your markers horizontally (flat) and always replace the cap immediately after using, even if you are just taking a short break. This will stop the ink from drying out.

STEP 1

Sketch out your design onto a piece of paper before you start to decorate your porcelain dish. Once you have a design, transfer it lightly onto your dish using a pencil. Look to our design for inspiration or come up with your own!

STEP 2

Shake your markers well before use.

STEP 3

Press the tip of your marker gently & repeatedly to start the ink flow. Do this on some scrap paper, you may need to repeat this step each time you use your markers to get the ink flowing

STEP 4

Fill in your design using the markers.

TIP

Remember when baking your dish, DO NOT pre-heat the oven. The difference in temperature may cause your dish to crack. Instead, put your dish in a cold oven, then turn the oven on.

STEP 5

Once dry, place your dish in a cold household oven. Once the temperature has reached 160°C, bake your dish object for 90 minutes to heat set your design.
