How to:

TIP

Store your markers horizontally (flat) and always replace the cap immediately after using, even if you are just taking a short break. This will stop the ink from drying out.

STEP 1

Sketch out your design onto a piece of paper before you start to decorate your porcelain mug. Once you have a design, transfer it lightly onto your mug using a pencil or free hand draw if you are confident.

STEP 2

Shake your markers well before use.

STEP 3

Press the tip of your marker gently and repeatedly to start the ink flow. Do this on some scrap paper, you may need to repeat this step each time you use your markers to get the ink flowing!

STEP 4

Fill in your design using the markers

TIP

Remember when baking your mug, DO NOT pre-heat the oven. The difference in temperature may cause your mug to crack. Instead, put your mug in a cold oven, then turn the oven on.

STEP 5

Once dry, place your mug in a cold household oven. Once the temperature has reached 160°C, bake your mug for 90 minutes to heat set your design.
