SEARCH TERMS: light tray, sand activity

Materials:

- 17179 - Foam Australian Animal Stickers - Pack of 120
- 14924 - Ultra Bright LED Light Panel - A3
- 15120 -
- 15373 - CleverPatch Coloured Sand - 1kg - Set of 12 Colours
- 16620 - CleverPatch Exploration Light Tray
- 17272 - CleverPatch Fan Brushes - Pack of 10

How to:

TIP

Beach/natural sand will be required to complete this activity.

TIP

It may be useful to place a splash mat under the work surface to catch any excess sand.

STEP 1

Place your light panel onto the work surface.

TIP

Make sure the cord is not a trip hazard.

STEP 2

Place your tray on top of your light panel and plug it into the power point. Turn the light panel on.

TIP

We chose foam stickers as they can be easily removed from the tray surface. You may like to stick them onto a piece of sticky tape first so they don't stay in your tray!

STEP 3

Stick about 4 or 5 foam stickers onto the bottom of the tray.

STEP 4

Pour a layer of sand into the tray. Make sure the whole surface is covered. We suggest no less than 1cm deep.

STEP 5

Using a soft brush, brush the sand away from the surface of the tray until all of the stickers have been found.
