

## Milky Watercolour Fireworks

[www.cleverpatch.com.au/ideas/by-subject/play-based-creativity/exploratory-play/milky-watercolour-fireworks](http://www.cleverpatch.com.au/ideas/by-subject/play-based-creativity/exploratory-play/milky-watercolour-fireworks)

A fabulous activity to highlight colour dispersion and mixing. A great group experiment!

### Materials:

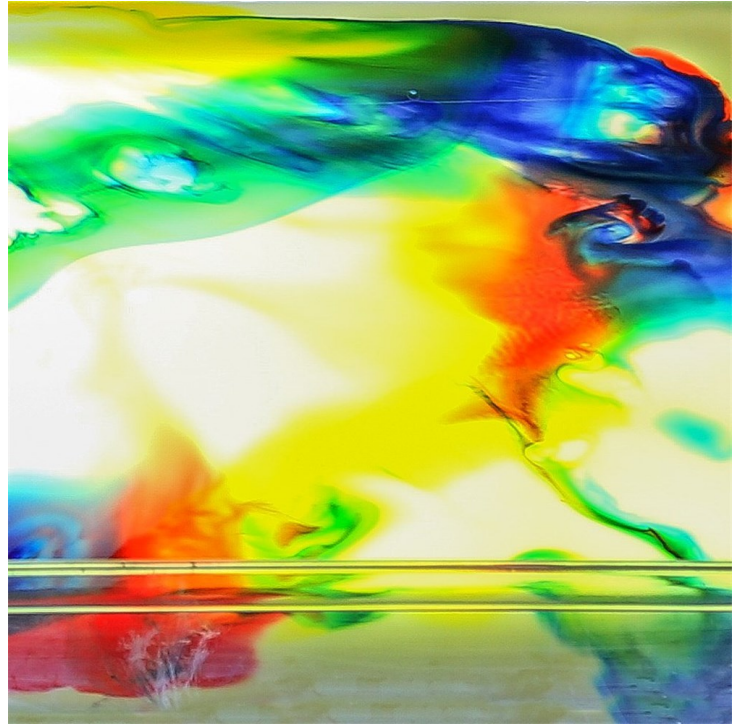

10699 - Paint Pipettes - Pack of 12

14924 - Ultra Bright LED Light Panel - A3

16366 -

16620 - CleverPatch Exploration Light Tray

19179 - Cotton Tips - Pack of 600

## How to:

### TIP

It may be useful to place a splash mat under the work surface to catch any excess liquids.

### STEP 1

Place your light panel onto the work surface.

### TIP

Make sure the cord is not a trip hazard.

### STEP 2

Place your tray on top of your light panel and plug it into the power point. Turn your light panel on.

### STEP 3

Carefully pour a layer of milk into your tray making sure the entire surface is covered. We suggest about 2cm in depth.

### STEP 4

Squeeze small amounts of watercolour onto the surface of the milk using your paint pipettes.

**TIP**

Put the dishwashing liquid into a small bowl first.

**STEP 5**

Dip a cotton tip into dishwashing liquid.

**STEP 6**

Dip the cotton tip onto the paint spots in the milk and watch the milky fireworks!
