Materials:

12437 - Paper Magiclay - Coloured - 240g Pack

12850 - Papier Mache Rectangle Frame

13071 - Cardboard Australian Animals - White - Pack of 24

How to:

STEP 1

Decide which animal cut-out you will use for your design and then gently attach it to the middle of your frame with glue.

TIP

Don't roll too many at a time as they dry out quickly and they will not stick to each other.

STEP 2

Begin rolling small sphere shapes from Magiclay. We mixed some of the colours together to create an orange and a brown.

STEP 3

Begin to attach your small spheres to your picture.

STEP 4

Follow your design to create a beautiful Aboriginal-inspired work of art.

TIP

You may like to use paint or collage to add colour to your frame. You could also add more Magiclay spheres or just leave it plain.

STEP 5

Continue to add small spheres of Magiclay until you have completely filled in your design. Set aside to dry for at least 24 hours.
