Materials:

- 10609 - Cardboard Greeting Cards - White - Pack of 20
- 15800 - CleverPatch Junior Artist Paint - 500ml - Set of 11 colours
- 16354 - EC Watercolour Discs - Pack of 18
- 17804 -

How to:

STEP 1

Create 4 evenly spaced folds in your card as shown. It is important that these folds meet in equal proportions.

STEP 2

Flip your card over and press down on the folds so that the creases are crisp. Your card should sit in a portrait layout, with the middle strip of the card being a whole piece.

STEP 3

Use pencil to draw your design on the card while it is folded. This way you can be sure that all of the illustrations and words on your card sit in the right places.

STEP 4

Unfold your card and connect the gaps on the arms of your illustration.

TIP

To create a skin tone colour, mix a touch of brown paint to white paint. Add more brown paint for a darker tone.

STEP 5

Paint your design with bright colours. Allow to dry.

STEP 6

Paint the background of your card with watercolour paint. Allow to dry.

STEP 7

Finally, use a black fineliner to outline your design and write your message on the card.
