# How to:

## STEP 1

It's best to pre-wash your apron before you start to decorate it. Allow to dry. Run the iron over it so that you have a nice smooth surface to work on.

## STEP 2

Sketch out your design onto a piece of paper before you start to decorate your apron. Once you have a design, transfer it lightly onto your apron using a pencil. This is not essential, but helps with planning your design.

## STEP 3

Use fabric markers to draw over your design on your apron.

## STEP 4

After you are finished decorating your apron, allow the design to dry. Turn your apron over or cover with a piece of cotton fabric and iron your design using a low heat setting. Be careful not to iron directly onto your design.
