### Materials:

- 10004 - Confetti - 15g Pack
- 10238 - Metallic Yarn - Gold - 20g
- 10364 - CleverPatch Junior PVA Glue - 250ml
- 12258 - Jingle Bells - Gold & Silver - Pack of 50
- 12771 -
- 16165 - 3D Wooden Star Cutout Frames - Pack of 10

# How to:

## STEP 1

Prepare the confetti by sorting a pile of red, dark green and light green.

## STEP 2

Carefully use the PVA to stick the confetti to the frame. Feel free to overlap the confetti in places and also leave some of the wood showing through in some places. Allow to dry.

## STEP 3

Add a touch of sparkle to the frame using the CleverGlitz™. We embellished with some curvy lines that weaved around the confetti circles but you may wish to do dots or stripes - it's up to you! Allow to dry.

## STEP 4

Cut a piece of metallic yarn and thread a jingle bell onto it. tie to the top of your frame so it hangs into the middle of the star cutout. Secure with glue and allow to dry.

## STEP 5

To complete your frame place your favourite Santa photo behind the square cutout and attach with glue. Allow to dry.
