How to:

STEP 1

Download the template and trace onto cover paper.

STEP 2

Cut out your pieces. Draw a nose, mouth and claws with a black pen then stick on cotton ball furry ears and wiggle eyes to add character.

TIP

Make sure when sticking down the arm that it runs along the peg. This way the arms will open and close with the peg.

STEP 3

Use PVA glue to attach a koala to the first side of the peg. Stick down the body first followed by the arm and leg on top of that. Allow to dry.

STEP 4

Flip the peg over and attach the remaining koala to the opposite side.
