How to:

STEP 1

Download the templates provided. Select which 3D shape you require and print out the number of copies needed. We recommend printing on cover paper as this provides a great surface for decorating.

STEP 2

Decorate the template using your favourite craft materials and allow to dry if needed. Cut out the template. Adult supervision is recommended when using scissors.

STEP 3

Construct your 3D wooden shape and use glue for permanent assembly. Allow to dry. You may wish to paint your wooden shape. Allow to dry.

STEP 4

Use glue to attach your template to the 3D wooden shape. Allow to dry. Create a hanger using twine, yarn or thread. Your 3D Wooden Shape is now ready to display!
