

- To make the ant's legs cut 6 pieces of chenille stems. Bend them at right angles in the centre of the chenille stem. Attach to the body with glue.

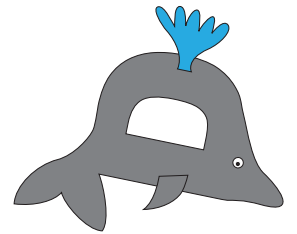

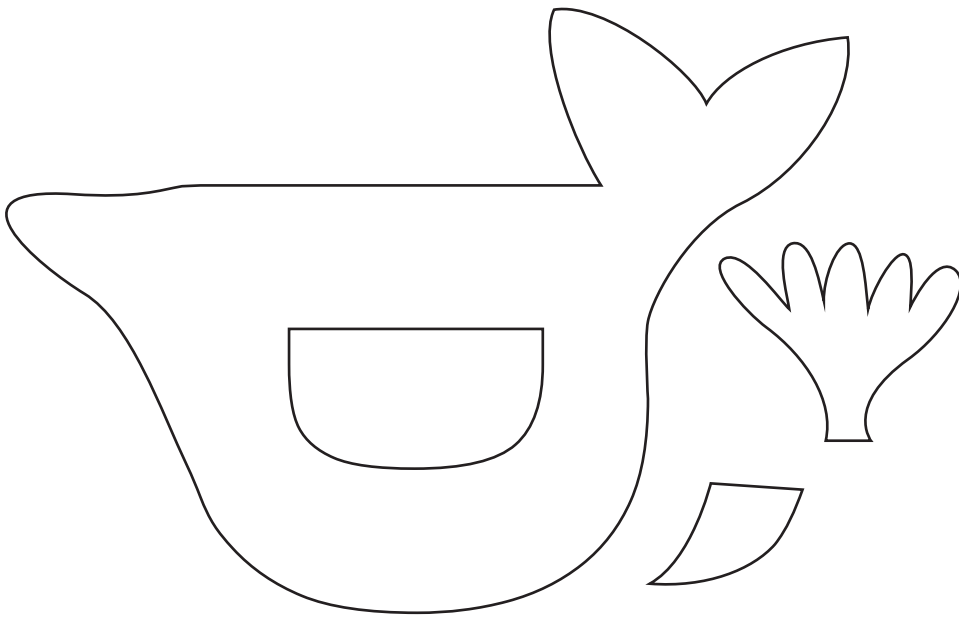

- Use a black marker to draw the stripes onto your bee.

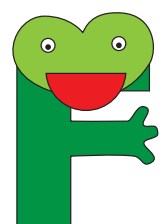

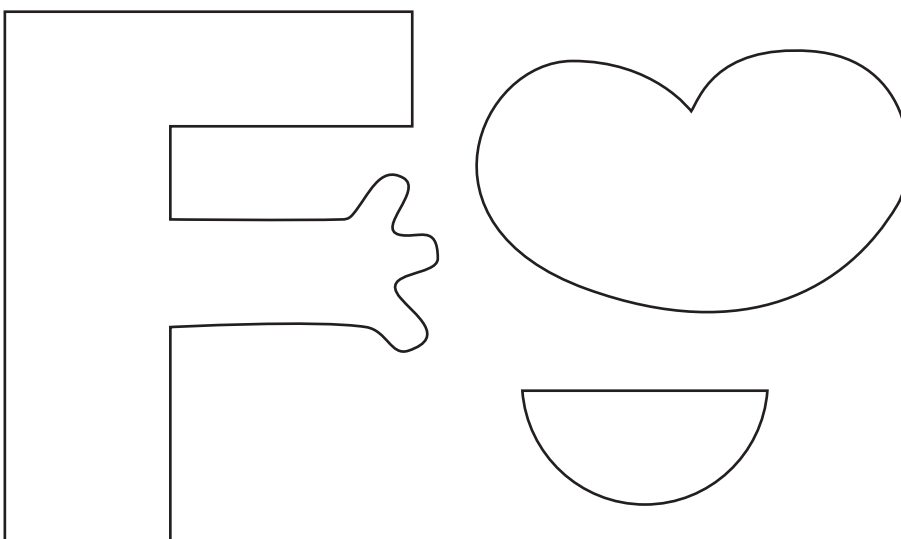

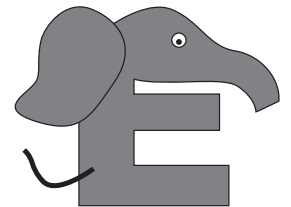

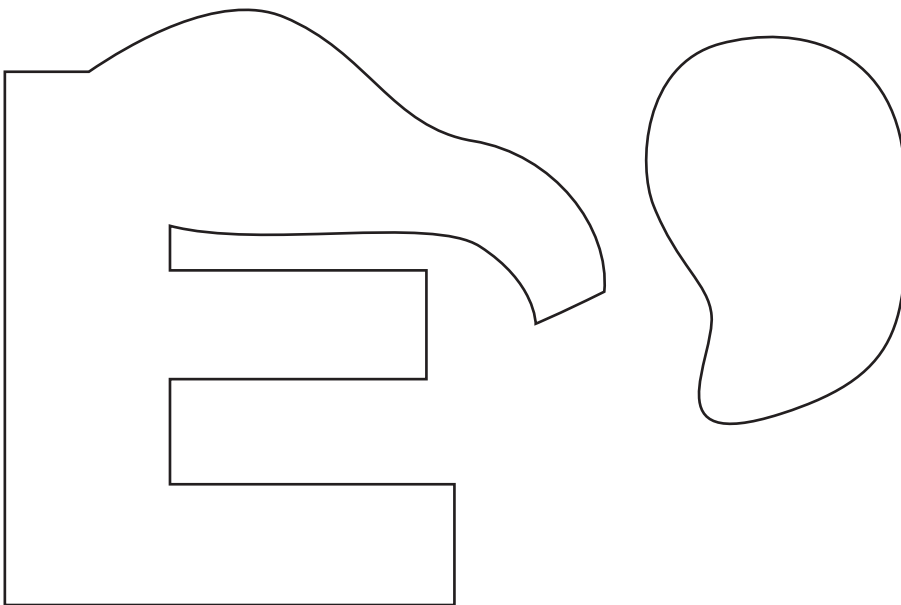

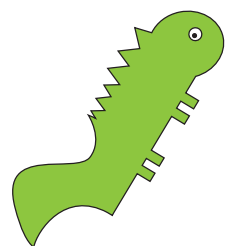

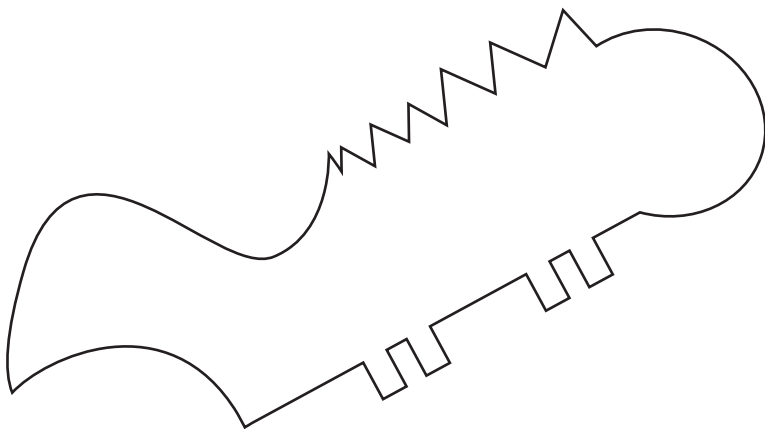

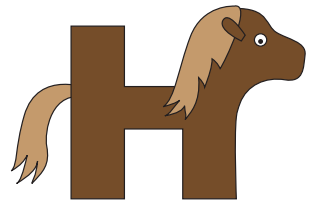

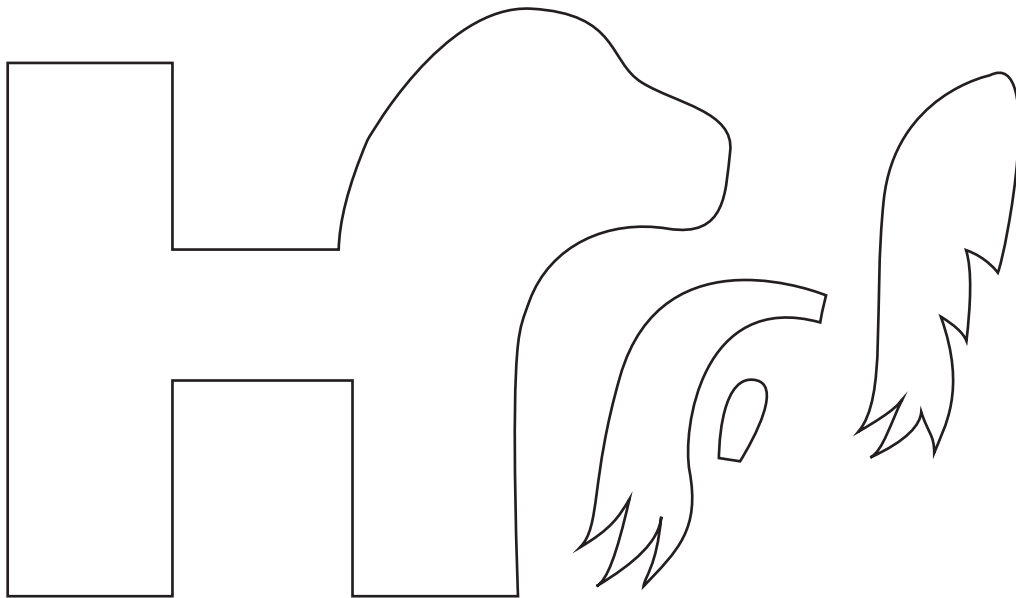

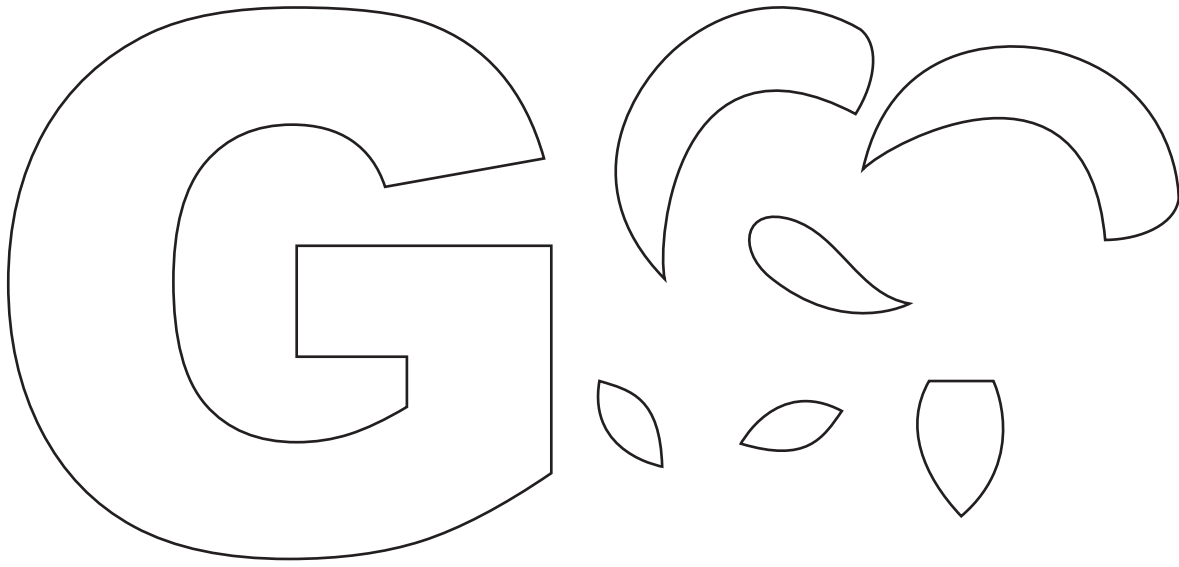

- To make whiskers for your cat cut 2 pieces of chenille stem. Cross the pieces over each other and attach to your cat's nose with glue.

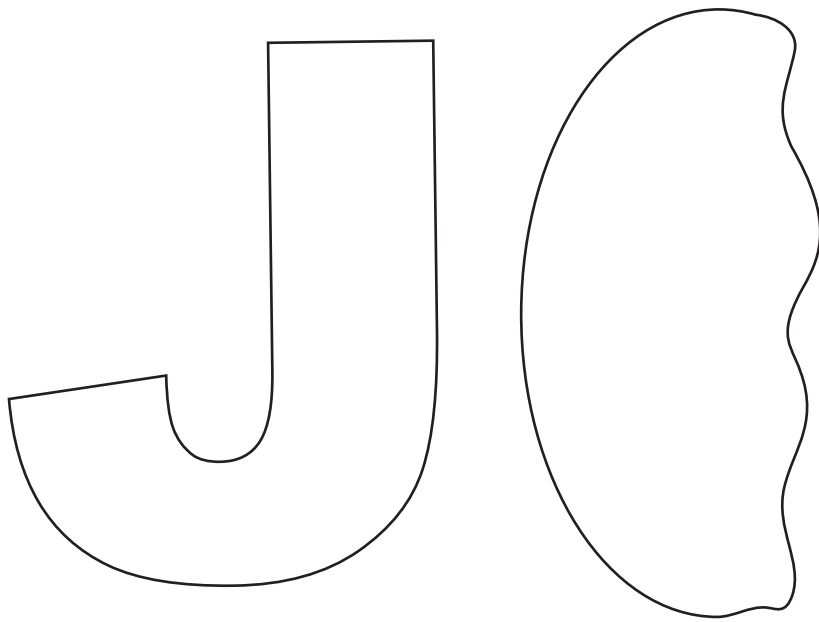

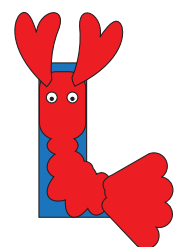

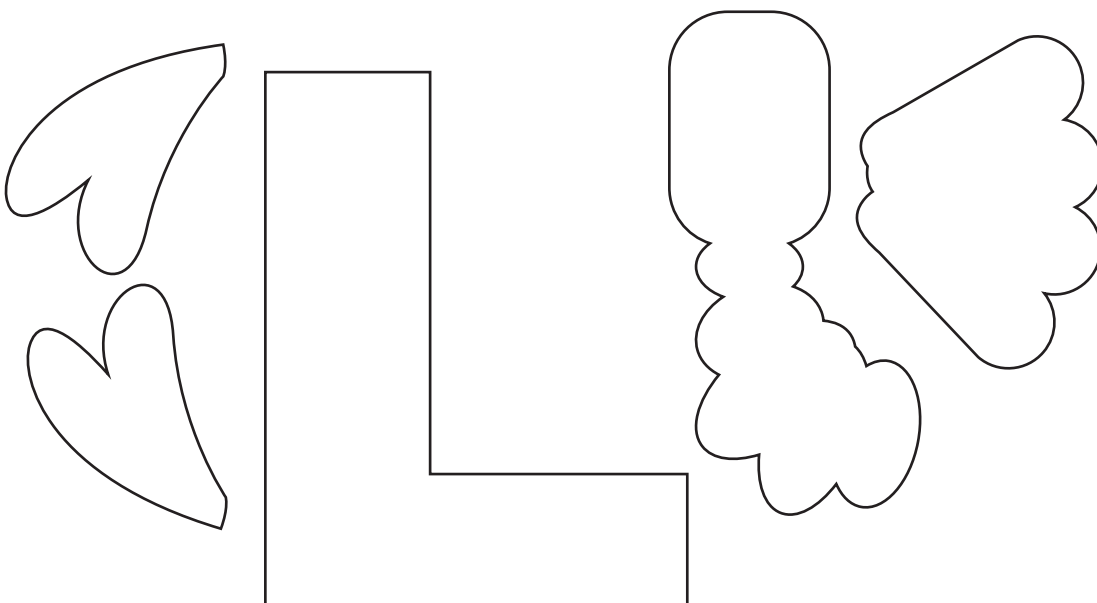

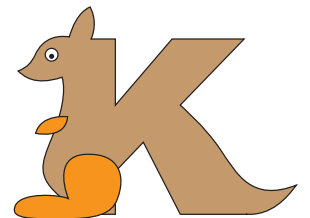

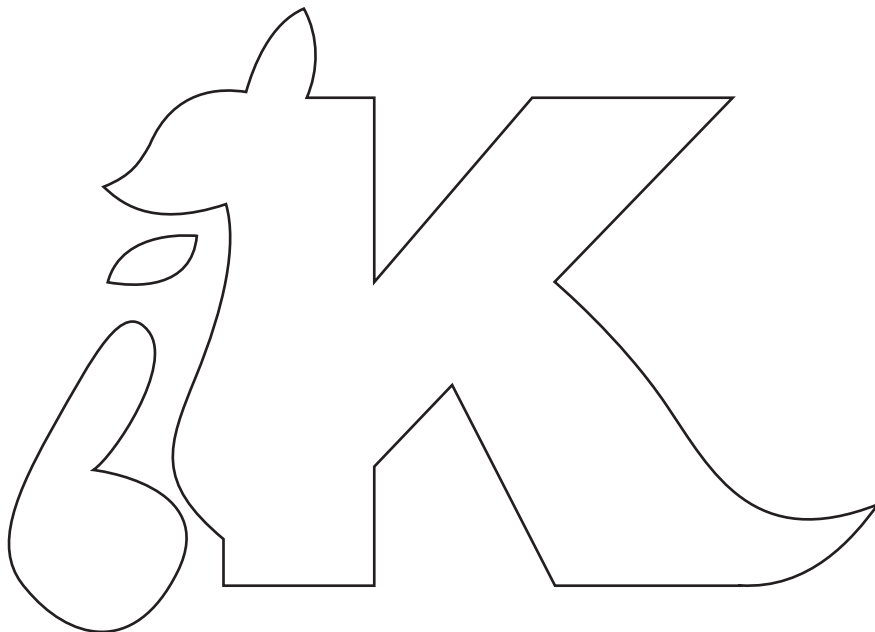

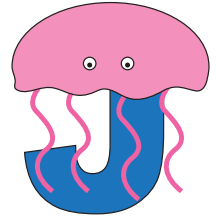

- Cut a piece of yarn to create your elephant's tail.

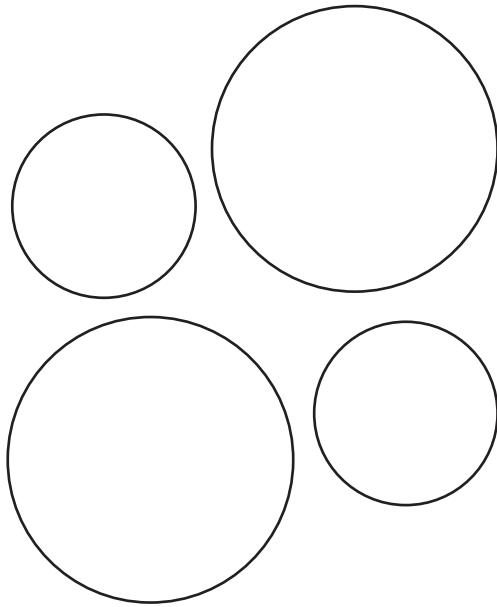

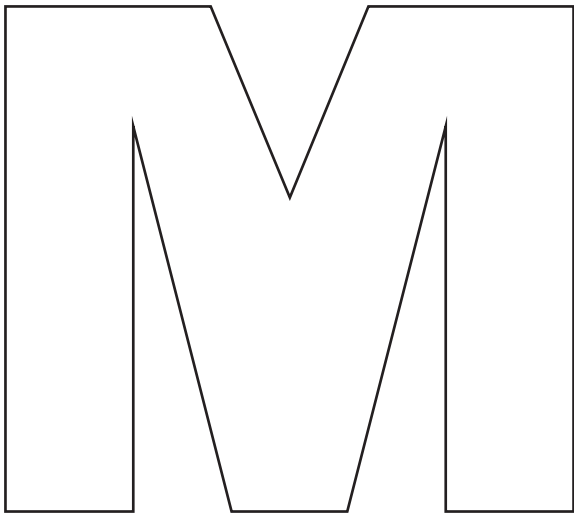

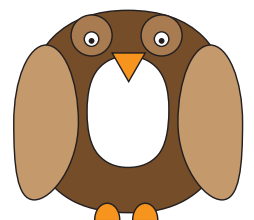

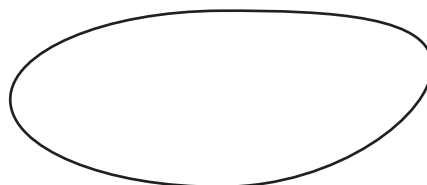

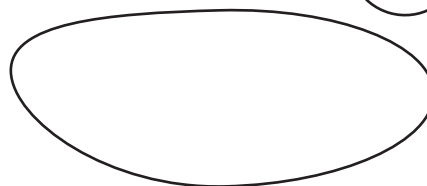

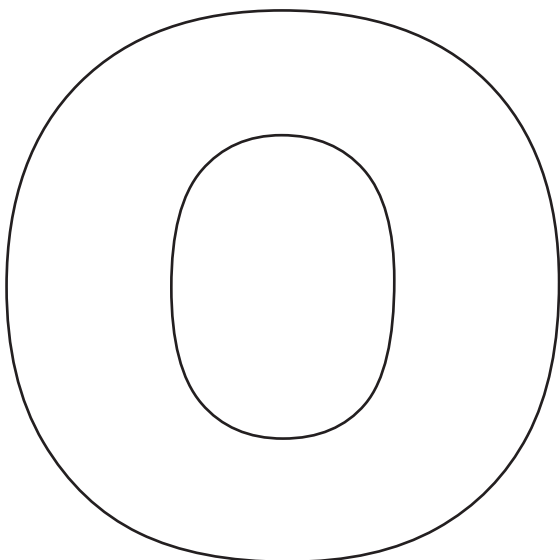

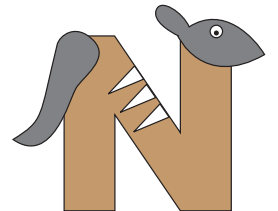

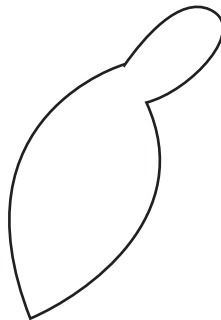

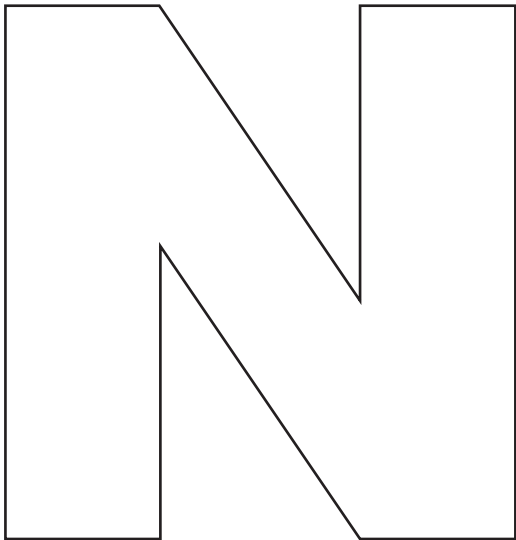

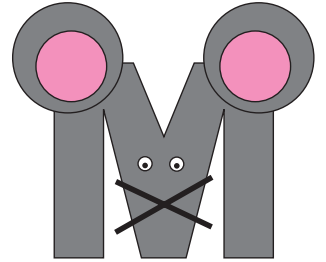

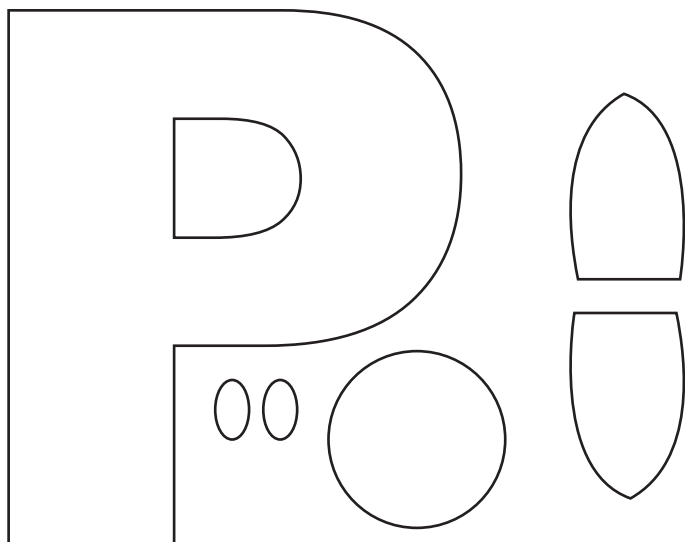

- Cut 4 pieces of yarn to create tentacles for your jellyfish. Attach underneath the body with glue.

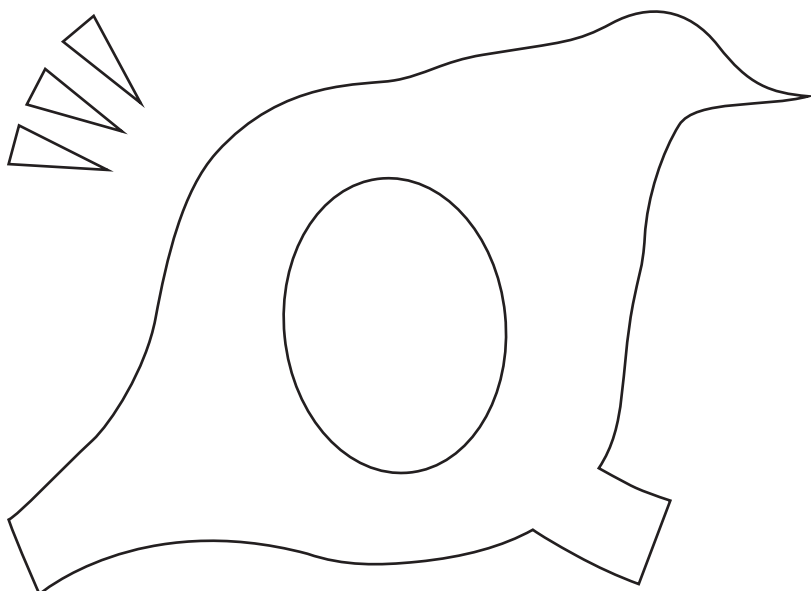

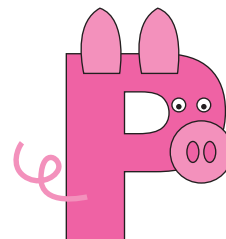

- To create whiskers for your mouse cut 2 pieces of chenille stem and cross the pieces over each other. Attach to your mouse's face with glue.

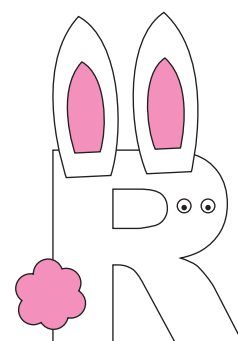

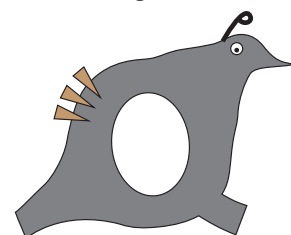

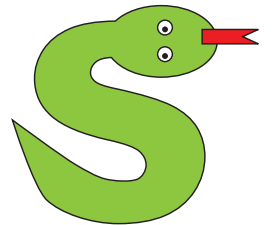

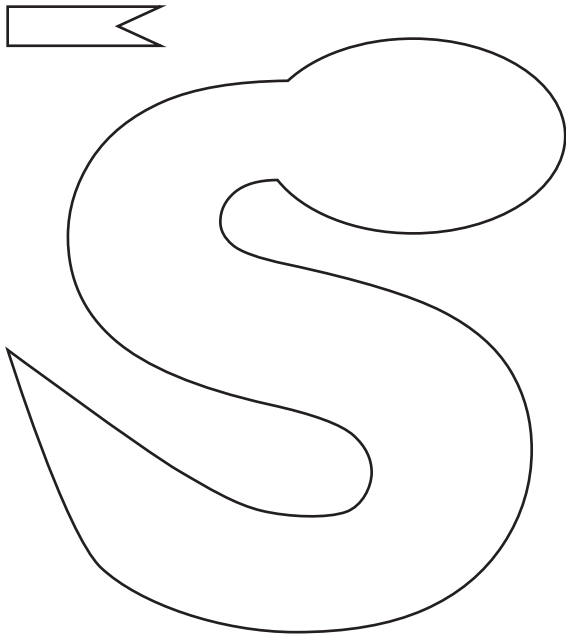

- To create a curly tail wrap a pink chenille stem around your finger. Slightly pull it out and attach to your pig's body with glue.

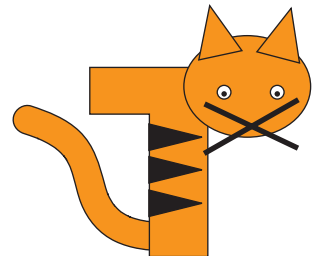

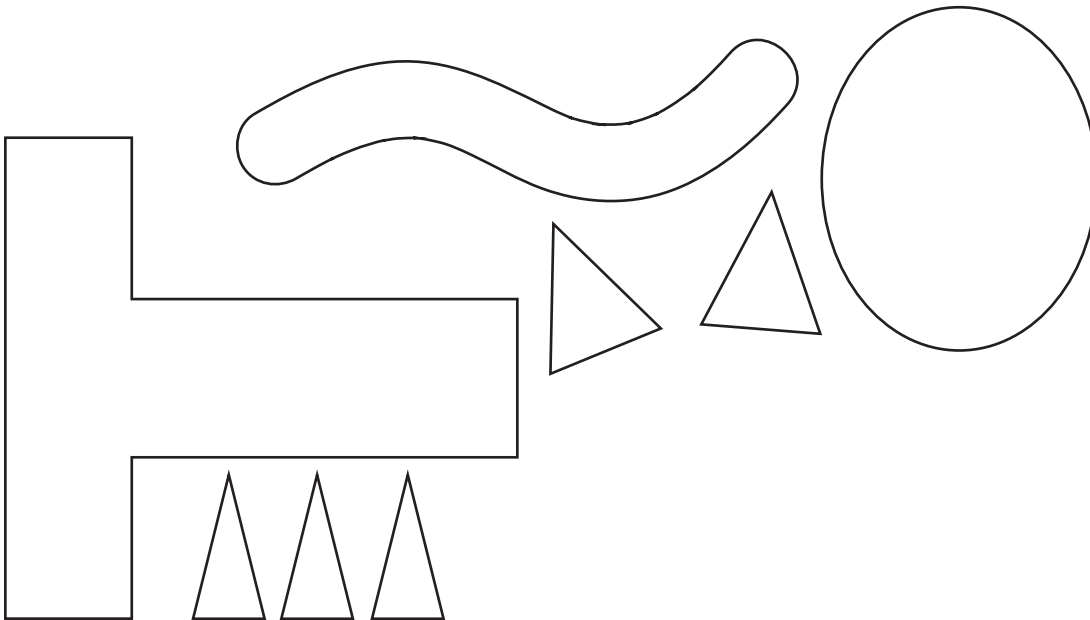

- To create a feather for the top of your quail's head wrap one end of a chenille stem around your finger. Attach the straight end to your quail's head with glue.

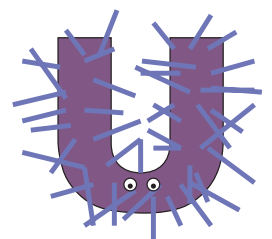

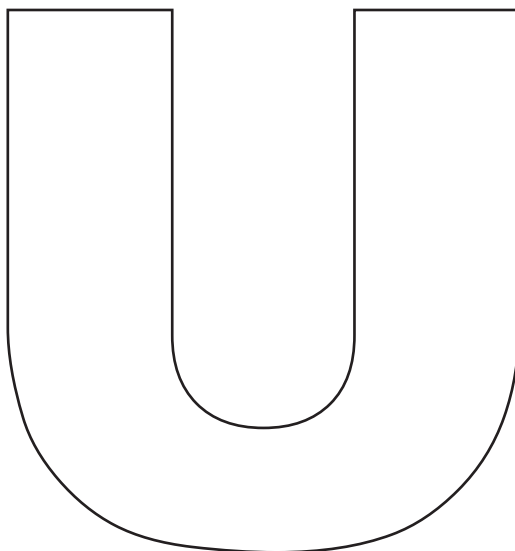

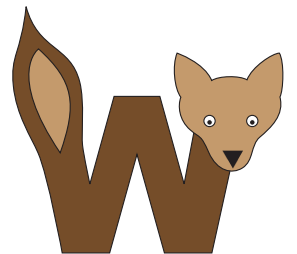

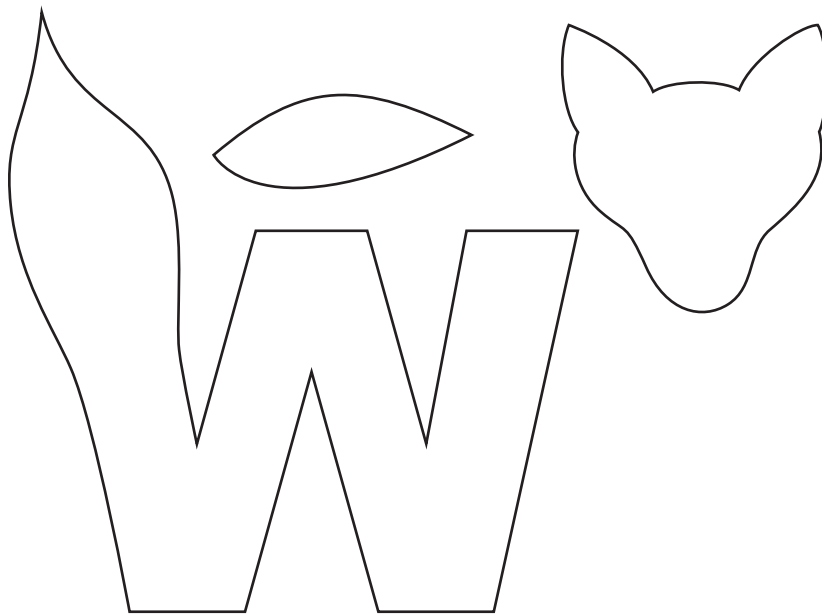

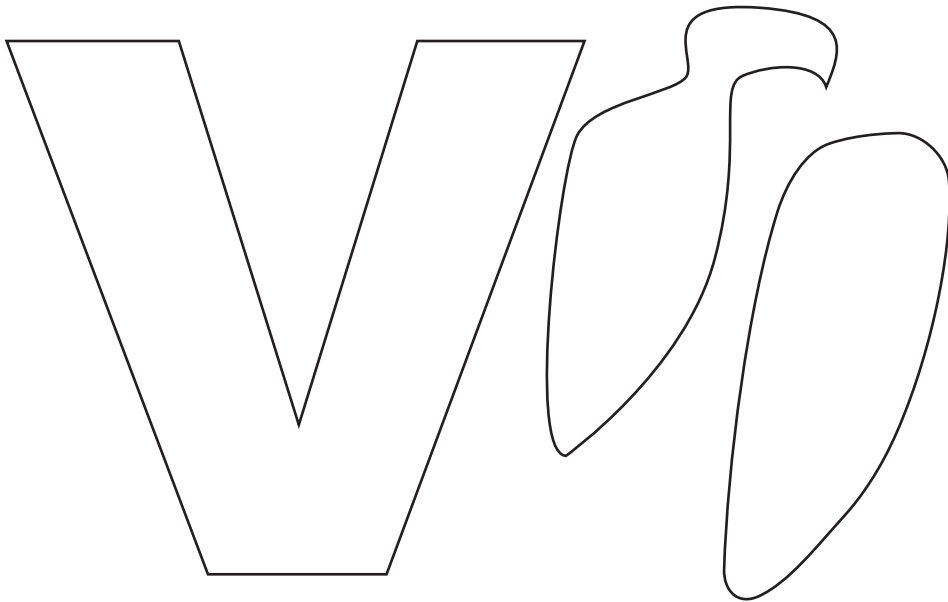

- To create whiskers for your tiger cut 2 pieces of chenille stem. Cross the pieces over each other and attach to your tiger's nose with glue.

- To create tentacles cut chenille stems into short pieces (depending on the size of the urchin). Attach the tentacles to the urchin with glue.

- To create a spine cut a white chenille stem to fit the 'X'. Cut 7 smaller pieces of white chenille stem for the bones and place them across the spine. Attach with glue.
