These Blackline Masters can be completed in a variety of ways. The activities are designed to be stimulating, crafty and fun! They range from simple colouring to more complex artworks depending on your requirements – it's up to you! They will equip children with important skills like colouring, cutting, gluing, folding, constructing and creative thinking. Below are some hints and tips for each activity to help you get the most out of your Blackline Masters.

All About Christmas Blackline Masters have been designed to celebrate Christmas with craft! Students are able to create fabulous Christmas creations to display or give to friends and family. Students can work individually or as part of a group. Experiment with a variety of materials and art techniques.

Ask students to cut out the sheet and fold along the dotted lines to create their booklet. Ask the students to colour and decorate their activity book and finish by completing the puzzles.

Christmas Baubles

Christmas Gift Tags and Card

Fold the card in half along the dotted lines. Have students colour and decorate the gift tags and card. Punch holes in the end of the gift tags and thread ribbon or string through so students can use them for Christmas presents. Ask students to write a message on the inside of the card and give to someone special at Christmas time.

Hang the Christmas Trees together for a lovely Christmas display. Remember these sheets can be enlarged or reduced on a photocopier according to your requirements. You could make a large A3 Christmas Tree for group decorating.

Have students colour and decorate. To construct the envelope, fold along the dotted lines, glue the tab and the inside flap together to make a pocket. Students can fill out the vouchers and place them inside the envelope to give as a special gift at Christmas time.
