

Winter Wonderland

- Print the template and trace onto cardboard for a sturdy base.
- Create a wonderful winter wonderland inside the circle and then decorate the strip.
- Cut out the 2 pieces ready for assembling, being sure to cut along the 2 vertical lines on the strip as well. At this point you could even flip the circle over and create a 2nd design on the back!
- Take the strip and bring the ends together to form a loop. Secure in place with tape. This is your base.
- Slide the circle downwards into the 2 slits of the base so your winter wonderland scene is now standing up!
