

Safety Data Sheets (SDS)

The Work Health and Safety Regulations of 2011 govern the need for Safety Data Sheets to be prepared for hazardous chemicals and products containing hazardous chemicals introduced into Australia. Section 330 (1) requires that a manufacturer or importer of a hazardous chemical must prepare an SDS; section 330 (4) requires that they provide it to anyone that asks for it. The classification of chemicals is also specified in the regulation.

Safety Data Sheets are **NOT** legally required to be prepared for chemicals that are **NOT** hazardous.

CleverPatch assesses every chemical that it supplies to determine its classification in accordance with the GHS as required by the Regulations for hazardous chemicals. We ensure that Safety Data Sheets are prepared in accordance with the Regulations if so required. Thorough safety checks and due diligence is done on all CleverPatch products. CleverPatch is not required to keep Safety Data Sheets for chemicals or products that are not hazardous.

The chemical components within this product have been deemed to be **NON-HAZARDOUS** and therefore an SDS is not required.
